A The APOE abundance axis: opposite risk directions
Intervention positions are schematic (direction only; the magnitude of APOE change is not known for any agent)
AD
AMD
observed heterozygous range
RO7812653 (APOE ASO, intrathecal, phase 1, 2026)
LX1001 (APOE2 gene therapy, intrathecal)
ALZ-801 (APOE4 conformation, level unchanged)
